USB 3.0 Type C Multiport Adapter

For Mobile Devices

Cleverly More Connections

The USB 3.0 Type C Multiport Adapter expands the connectivity of devices with USB Type C ports. It allows a variety of additional devices to be operated, including those that may otherwise be unable to find a connection such as peripherals with USB Type A plugs or ports for HDMI. The USB 3.0 Type C Multiport Adapter is available in both silver and dark grey.

Especially Developed for Tablets

Ready for
On-the-Go

The USB 3.0 Type C Multiport Adapter supports On-the-Go (OTG) devices. Thus, compatible peripherals, such as keyboards and mice, can be connected and used together with tablets or smartphones. The USB 3.0 Type C Multiport Adapter is so compact that it fits in any pocket. Apart from common PCs with Type C ports, the adapter also supports appropriate notebooks and MacBooks as well as tablets with Chrome OS.

Charge Your Device While In Use

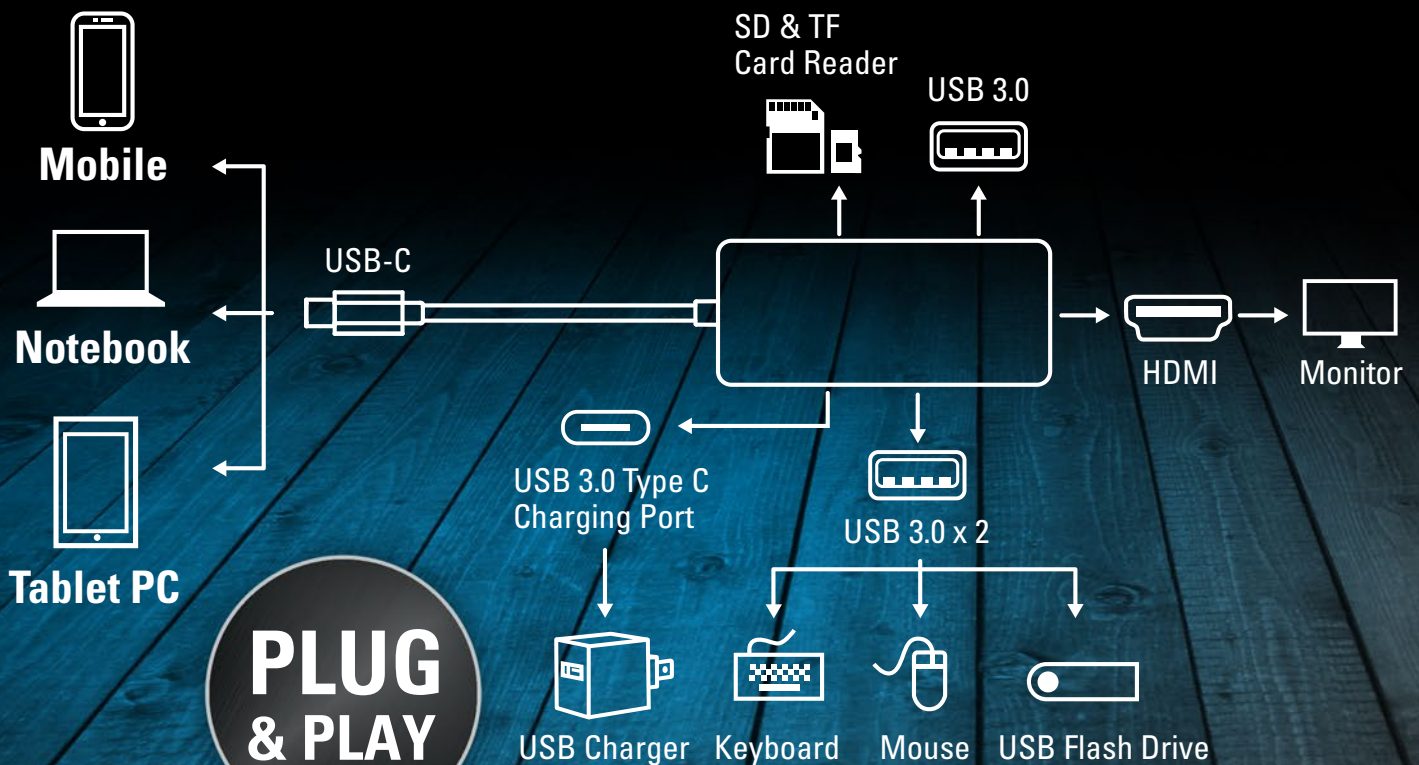

Supplies
Power to
100 W

The USB 3.0 Type C Multiport Adapter widens the flexibility of devices which have USB Type C ports by providing three Type A USB ports, a micro SD / MMC card reader, an HDMI connection with 4K output at 30Hz, and a USB 3.0 Type C charging port. Via this port, connected devices can be supplied with power, while the host device can be charged with a power input of 100 Watts.

Top Quality Looks

The USB 3.0 Type C Multiport Adapter is made from scratch resistant aluminum anode, which not only provides stability, shock resistance and excellent heat dissipation but also provides a look of high-quality.
